

Improving Service Delivery in the Health Care System for People with Disabilities

July 17, 2009
8:30 to Noon
St. John's Church
Collinsville, Illinois

Objectives

- To identify at least three barriers & corresponding emotional consequences that a person with a disability may encounter when accessing care
- To develop at least three strategies for removing these barriers when providing care to people of all disabilities
- To describe the operational, financial and emotional benefits for removing barriers during and after service delivery of people with disabilities
- To learn about resources, services and products available to promote independence and dignity of people with disabilities during and after service delivery
- To plan an effective strategy that will maximize the independence of the patient after he/she leaves your care

Target Audience:

Social Workers, Nursing Professionals, Occupational Therapists, Physical Therapists, Healthcare Providers

\$10.00 Registration Fee -

Scholarships available upon request

The fee for a CE certificate is \$10.00

All Social Workers or Licensed Clinical Professional Counselors requesting a certificate for CE Contract Hours must complete and sign a request form that will be available at the workshop

At the conclusion of the workshop, please mail the completed form, along with a check for \$10.00 made payable to SIUE, Conferences and Institutes, SIUE, Campus Box 1036, Edwardsville, IL 62026

A certificate will be prepared and mailed to you upon receipt of the completed and signed form. All forms must be returned to SIUE by **July 27, 2009**

To register please contact Wendy Wood at IMPACT CIL 618-474-5305.

As a result of this workshop, participants in the health care system will better able understand why and how to access resources and provide services that will remove barriers effectively for patients with various disabilities throughout the service delivery process.
